VISHAL PIPE

Strong Pipes. Smarter Irrigation. Stronger Future.

Premium Piping Solutions for Agriculture, Irrigation & Industrial Applications

HDPE Pipes • Sprinkler Pipes & Fittings • Suction Hoses • Column Pipes • Irrigation Solutions

Think Big, Think Vishal.

About Vishal Pipe

Built on Experience. Driven by Quality.

Established in **1969**, Vishal Pipe is a manufacturer, supplier and exporter of industrial pipes and pipe fittings.

The company offers piping solutions including **HDPE, PVC, Sprinkler, Drip, MDPE and LDPE Pipes**, designed for agriculture, irrigation, gardening, horticulture and water-supply applications.

Our Focus

- Quality manufacturing
- Durable products
- Reliable performance
- Customer satisfaction
- Practical irrigation solutions

Our Product Portfolio

Complete Piping Solutions Under One Roof

Product	Purpose / Positioning
Vishal HDPE Pipes	Strong, lightweight and corrosion-resistant piping solutions.
Sprinkler Pipes & Fittings	Designed for efficient agricultural and irrigation applications.
Suction Hose	Flexible solutions for water handling and related applications.
Column Pipes	Suitable for borewell and submersible pump applications.
Spray Pipes & Irrigation Products	Solutions supporting modern farming and water management.

Vishal HDPE Pipe

Strong, dependable piping for demanding applications.

Vishal HDPE Pipes are designed for water distribution, irrigation and industrial applications.

Key Features

- High strength and durability
- Lightweight construction
- Corrosion resistance
- Smooth inner surface
- Flexible and easy to handle
- Suitable for multiple applications

Applications

- Lift irrigation systems
- Water distribution
- Industrial projects
- Municipal water supply
- Sewage systems
- Fire mains
- Agriculture & irrigation
- Drainage applications

Website specifications list sizes from **16 mm to 400 mm** and pressure ratings from **2.0 to 20.0 kg/cm**, with PE63/PE80/PE100 virgin HDPE grades available.

Sprinkler Irrigation Solutions

Smarter Irrigation for Better Farming

Efficient irrigation is essential for improving water management and supporting productive agriculture. Vishal Pipe provides sprinkler pipes and fittings designed for agricultural and other irrigation applications.

Benefits

- Uniform water distribution
- Flexible installation
- Lightweight and easy handling
- Corrosion and chemical resistance
- Leak-resistant performance
- UV stability
- Suitable for uneven land
- Reduced water wastage

Applications

Agriculture | Industrial Areas | Golf Courses | Playgrounds | Landscaping | Fish Rearing

Quality & Product Advantages

Quality You Can Rely On

Vishal Pipe focuses on piping solutions that combine durability, reliability and practical performance.

Advantage	What It Means
Durability	Products designed for demanding working conditions.
Reliability	Consistent performance for water and irrigation systems.
Flexibility	Suitable solutions for different installation environments.
Corrosion Resistance	HDPE-based solutions offer resistance to corrosion and chemicals.
Easy Handling	Lightweight products simplify transportation and installation.
Quality Standards	Product literature highlights applicable IS standards and product specifications.

Applications & Industries

Solutions Across Multiple Industries

Agriculture & Irrigation

- Farm irrigation
- Sprinkler systems
- Water distribution
- Borewell applications

Infrastructure

- Municipal water supply
- Sewage systems
- Drainage
- Multi-village/city water distribution

Industrial Applications

- Mining
- Cement industries
- Power plants
- Industrial fluid handling

Other Applications

- Gardening
- Horticulture
- Landscaping

- Golf courses
- Fish rearing

Our Working Process

From Requirement to Reliable Solution

Step	Approach
01 — Understanding Your Needs	We understand your project, application and technical requirements.
02 — Product Customization	Product size, material and design can be aligned with application requirements.
03 — Quality Manufacturing	High-grade materials and manufacturing processes support consistent product quality.
04 — Timely Delivery	Products are supplied according to customer requirements and delivery schedules.
05 — After-Sales Support	Customer guidance, service and support continue beyond product delivery.

Trust, Experience & Customer Satisfaction

A Partnership Built on Trust

Vishal Pipe's website showcases long-term relationships with dealers and customers who highlight the reliability and quality of its products.

Customer Feedback Highlights

“The quality of your products is very good and reliable.”

“My customers also love all the products of Vishal Pipes.”

“Their product quality is reliable and my customer is happy.”

Our Commitment

Quality Products + Reliable Service + Long-Term Relationships

With its established history and broad product portfolio, Vishal Pipe aims to support farmers, dealers, contractors, industries and infrastructure projects with dependable piping solutions.

THANK YOU

Think Big. Think Vishal.

Let's Build Better Water & Irrigation Solutions Together.
